TYRE EFFICIENCY INFORMATION

The vehicle being configured will come with one of the below tyres. It is not possible to select a specific tyre when ordering a vehicle.

LEGAL NOTE

- 1
- a. , then prices shown are the MDP (Manufacturer's Direct Price). This is the price set by CUPRA which you pay for the vehicle. CUPRA Born vehicles are sold by CUPRA UK, a trading division of Volkswagen Group United Kingdom Limited (please note that you will need to visit an authorised CUPRA Agent to order, purchase and take delivery of your CUPRA Born vehicle). The Manufacturer's Direct Price includes delivery to an authorised CUPRA Agent, number plates, new vehicle registration free, the first year's Vehicle Excise Duty and VAT (calculated at 20%). You can find out more about the CUPRA model for selling CUPRA Born vehicles by clicking
- b. , then the prices shown are CUPRA's recommended on the road prices (Recommended On The Road Price or ROTR). Actual prices are set by CUPRA authorised retailers in their sole discretion – always obtain these prices from your chosen CUPRA retailer. The Recommended On The Road Price includes the standard UK delivery charge, number plates, new vehicle registration fee, the first year's Vehicle Excise Duty and VAT (calculated at 20%).
- c. CUPRA UK may change prices (direct or recommended) at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any prices (direct or recommended) displaying correctly on our materials and through the configurator.
-

- 2
- All vehicles are tested according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption, CO2 and equivalent electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load (and, for battery electric vehicles, the starting charge of the battery). Figures for plug-in hybrid vehicles were obtained using a combination of battery power and fuel. Plug-in hybrid vehicles require mains electricity for charging. Figures for battery electric vehicles were obtained after the battery had been fully charged. Battery electric vehicles require mains electricity for charging. Zero emissions while driving. Figures quoted are subject to change due to ongoing approvals / changes and range figures may include options not available in the UK. Please consult your local Retailer for further information. Data correct at 02/2023.
