All engines and options availability subject to stock

---

3) Fuel consumption and CO2 emissions figures are obtained under standardised EU test conditions (or, in cases of vehicles with WLTP type approval, are the NEDC figures provided pursuant to Government guidance until further notice). These figures facilitate direct comparison between different models from different manufacturers, but may not represent the actual fuel consumption achieved in 'real world' driving conditions. Choice of wheels and other options may affect fuel consumption and emissions data. [Click here](#) for further information. Images for illustrative purposes only.
